The Collins Story - Celebrating 200 years of stationery making!

Our heritage dates back to 1819 when a Presbyterian schoolmaster named William Collins set up his first printing press in the ancient Candleriggs of Glasgow. Over the centuries Collins stationery has touched lives across the globe.

As passionate makers of quality products, we are driven by innovation and creativity to satisfy and exceed your needs. Our products help to balance life's many responsibilities and desires by bringing it all together in perfect harmony.

We know that being authentic to who you are on the inside is essential and that your stationery is a fundamental tool in expressing that.

Collins - Authenticity that evolves.

DEBDEN

The Debden Story

Named after a road in Singapore, the Debden brand was established in 1978. A year later we expanded into Australia and broadened our product range to cater for both the retail and corporate marketplaces.

Since then the brand has merged with the Collins business to become Collins Debden, the leading force in stationery in Australia and the United Kingdom. Designed to be stylish and functional, the Debden range is a must-have for your everyday use.
